Equipment Introduction:

Behind each Zenoah Mist-Blowers/Duster is a wide range of unique user friendly features, incorporating reliability and performance in a compact package to complete your spraying applications more quickly and easily.

The Zenoah MD431A is light weight and comfort in a high performance package. Specially designed with duster and mister capabilities, it comes equipped with a 23 litre chemical tank and allows the user a great level of flexibility and maneuverability in a wide range of applications.

Designed for misting functions only, the MD431M is the most economical and reliable model for most general misting work. It is a high value for money model, light weight and suitable for mid to heavy duty applications.
