

# NOFAR-1

(SINNEAR-PeIRB/104/0661)

**BRODIFACOUM - 0.005%w/w**  
**Formulation: Pellets bait**

**NOFAR-1** is an anticoagulant rodenticide which has showed exceptional activity against all rodent species, and can be used in all places where rodents can live.

**NOFAR-1** gives excellent control of rats and house mice. It is readily accepted and do not cause any development of poison shyness.

**NOFAR-1** causes inconspicuous and painless death of rats, just as if they had died of senility. There are no visible symptoms, so that other rats in the colony are not warned.

Type of applications	Application method
<ul style="list-style-type: none"> <li>- <b>Surface Treatment</b></li> </ul>	<ul style="list-style-type: none"> <li>- <b>NOFAR-1</b> is a ready-to-use pellets to control rats.</li> <li>- Use 1-2kg/1,000m<sup>2</sup> and that depend on consumption rates.</li> <li>- <b><u>RAT</u></b>: Use 100gm of bait and put beside well-defined runs and around burrows and holes and in other sheltered places. Use bait containers/DC Rodent station as far as possible.</li> <li>- <b><u>MICE</u></b>: Use about 25gm of the bait and put around the infested areas, near the runs and burrows.</li> <li>- <b><u>RUBBISH TIPS</u></b>: Put large quantity in rubbish tips and rodent feeding placed. Made sure to add new quantity when needed to prevent rodents re-spreading.</li> </ul>
<ul style="list-style-type: none"> <li>- <b>General notes</b></li> </ul>	<ul style="list-style-type: none"> <li>- To reduce wastage of <b>Nofar-1</b>, no more applications of the bait should be added within a period of one week.</li> </ul>
